

Naturally Refined. Consciously Crafted.

A SIMPLE, THOUGHTFUL AND RESPONSIBLE WAY
TO SERVE FOOD AND BEVERAGES AT SCALE.

Made from

**Natural Rice Bran, Rice Husk &
Plant-Based Materials**

For schools, events, cafes, catering, picnics
and everyday conscious serving

BIODEGRADABLE TABLEWARE

MADE FROM AGRICULTURAL MATERIALS

Brand Introduction

At Aura Farmers, we create **biodegradable tableware** from natural agricultural materials like *rice bran, rice husk and plant-based binders*.

Our products are made for people, brands and institutions that want serving to feel **responsible, functional and easy to adopt**.

Each product is designed to be **simple, useful, food-safe and naturally biodegradable**.

It makes it easier for **modern India** to choose better everyday serving habits.

A Better Way to Serve

India is slowly changing the way it consumes.

People are becoming more **conscious** about what they use, what they serve in and what they leave behind.

Aura Farmer products support this shift with tableware that is **easy to use, easy to dispose & practical for regular serving environments**.

The products decompose within **60 to 90 days** without needing special industrial processing.

They can also be added to soil as compost or plant feed, supporting a simple **soil-to-soil** cycle.

Where Aura Farmer Products Can Be Used?

Schools & Institutions

For canteens, picnics, annual functions, activity days and short-duration food service.

Picnics & Outdoor Gatherings

For outdoor meals, community gatherings and food stalls where tableware needs to be easy to carry, use and dispose.

Events & Catering

For weddings, exhibitions, cultural events, spiritual gatherings, corporate events and bulk food counters.

Hotels, Resorts & HORECA

For buffet counters, café service, guest-facing food service and takeaway counters.

Cafes, QSRs & Everyday Serving

For tea, coffee, snacks, desserts, small meals and beverage service.

Public Functions & Community Events

For religious gatherings, social events, college events, workshops, local functions and food distribution setups.

Corporate Dining & Bulk Food Service

For offices, cafeterias, training sessions, employee events, meetings, conferences and internal food service.

Corporate & Academic Sustainable Gift Hampers

For sustainable hampers, event giveaways, academic kits and conscious gifting.

Retail & Reseller Channels

For eco stores, organic stores, distributors, gifting platforms and retailers looking to add biodegradable tableware to their product range.

Why Choose Aura Farmer Products?

A BETTER SERVING CHOICE THAT WORKS FOR REAL INDIAN USAGE

Made from Natural Agricultural Materials

Crafted using rice bran, rice husk and plant-based binders for a simple, biodegradable serving choice.

Practical for Indian Food Service

Suitable for dry foods, snacks, sweets, bakery items, semi-solid foods, beverages, meals and liquid curries with spoons.

Easy to Store and Handle

Lightweight, stackable and easy to manage when stored properly in a cool and dry place.

Decomposes Naturally

Made to break down naturally within 60 to 90 days without needing industrial processing.

Pet-Friendly by Nature

Made from non-toxic, natural materials, making them a more mindful choice around pets and animals.

Better After-Use Impact

Even when disposal conditions are not perfect, the product is made to decay over time.

Conscious Brand Value

Using Aura Farmer products helps businesses and institutions show better choices without changing their entire serving process.

Soil-to-Soil Afterlife

Used products can return to soil as compost or plant feed, completing a natural soil-to-soil cycle.

Bulk Orders & Packaging

For vendors, caterers, and institutional buyers, we offer flexible packaging designed for efficient bulk handling and safe transport.

1

ADAPTIVE BULK PACKAGING

Carton quantities are adjusted based on order size and volume.

2

STORAGE ADVICE

Keep products in original packaging until use for best protection.

3

SECURE PROTECTION

Packed in strong cartons to protect from dust, humidity, and transit damage.

4

CUSTOM DISPATCH

Packaging formats can be tailored for bulk and large-scale distribution.

Final packaging details will be confirmed at the time of order

Usage Guidance for Best Experience

Aura Farmer products are designed for practical food and beverage serving in Indian conditions.

They work best for ***dry foods, snacks, sweets, bakery items, light meals, semi-solid foods, creamy preparations, tea, coffee*** and short-duration beverage service.

For food or beverages with higher moisture, the product performs best when served and consumed within a reasonable time.

For best hygiene and product performance, fresh pieces are preferred for serving.

In practical use, products used only for dry items and handled carefully may retain their shape for limited reuse.

Storage & Handling

Proper storage helps maintain the product's shape, finish and strength before use.

Recommended Storage

Store in a cool and dry place

Store away from strong odours

Keep away from water and moisture

Avoid placing heavy weight on open products

Avoid direct sunlight for long periods

Handle with care during transport and stacking

Keep cartons closed until use

Natural Product Behaviour

- Each piece may have a slightly ***different texture, tone or finish.***
- This is a normal part of the product's natural character.
- When exposed to liquids or ***high-moisture food for a longer time,*** the material may slowly respond by softening or changing texture.
- This is expected from tableware made with ***agricultural materials.***
- For best experience, use the products in ideal serving conditions and store them properly before use.

After Use: Designed to Return to Nature

Aura Farmer products are made to naturally break down after use.

They **decompose within 60 to 90 days** without needing special treatment or industrial processing.

Whether exposed to soil, moisture, open air or regular waste conditions, the material begins its natural breakdown over time.

The used product can also be added to soil as compost or plant feed, supporting a simple soil-to-soil cycle.

This helps **vendors, institutions and event organizers** choose tableware with a better after-use impact.

REPURPOSED AS
PLANT STARTER

DISPOSABLE TO SOIL
AS NATURAL MANURE

NO SPECIAL DISPOSAL,
FULLY BIODEGRADABLE

**No Industrial Composting Facility Is Required For Breakdown*

Serve Better. Leave Better Behind.
